

Now at the top of everyone's black list.

**Make your own statement
in a world of uniformity.**

Introducing a unique edition of the Grand Classic Sports Watch and Chronograph in a tough and durable black finish, with dials inspired by vintage 1930's Tutima sports watches from Glashütte. A sophisticated high density hardening process for the stainless steel case renders the metal highly scratch resistant, resulting in a watch that will virtually last for eternity. Both case and stainless steel bracelet are covered in a matte black PVD coating, creating an even more durable surface – a watch that you will be remembered for.
